Any user identified as a security risk may be denied access to the network.
8. Vandalism – Vandalism will result in cancellation of privileges, and other disciplinary action. Vandalism is defined as any malicious attempt to harm or destroy data of another user, the internet, or any other network. This includes, but is not limited to, the uploading or creation of computer viruses.

9. Telephone Charges – The District assumes no responsibility for any unauthorized charges or fees, including telephone charges, long-distance charges, per-minute surcharges, and/or equipment or line costs.

10. Copyright Web Publishing Rules – Copyright law and District policy prohibit the republishing of text or graphics found on the Web or on District websites or file servers, without explicit written permission.

- For each republication {on a Website or file server} of a graphic or text file that was produced externally, there must be a notice at the bottom of the page crediting the original producer and noting how and when permission was granted. If possible, the notice should also include the Web address of the original source.
- Students and staff engaged in producing Web pages must provide library media specialists with e-mail or hard copy permissions before the Web pages are published. Printed Evidence of the status of “public domain” documents must be provided.
- The absence of a copyright notice may not be interpreted as permission to copy the materials. Only the copyright owner may provide the permission. The manager of the Website displaying the material may not be considered a source of permission. is not necessarily authorized to act as a source of permission.
- The “fair use” rules governing student reports in classrooms are less stringent and permit limited use of graphics and text.
- Student work may only be published if there is written permission from both the parent/guardian and the student.
- Violation of the copyright web publishing rules may result in denial of access to the network.

11. Use of Email Electronic Mail

- The District’s email electronic mail system, and its constituent software, hardware, and data files, is managed by the District. The District provides e-mail to aid students and staff members in fulfilling their duties and responsibilities and as an educational tool.
- Email could be subject to public records requests and disclosures depending upon the subject matter of the contents of the email.
- The District reserves the right to access and disclose the contents of any account on its system, without prior notice or permission from the account’s user. Unauthorized access

by any student or staff member to another's email electronic mail account is strictly prohibited.

- Each person should use the same degree of care in drafting an electronic mail. email message that would be put into a written memo or document. Nothing should be transmitted in an email that would be inappropriate in a letter or memorandum.
- Email Electronic messages sent from a District account the district provided services are considered property of KSD. carry with them an identification of the user's internet domain. This domain name identifies the author as being with the District. Great care should be taken, therefore, in the composition of such messages and how such messages might reflect on the name and reputation of this District. Such messages reflect on the name and reputation of the district. Users will be held personally responsible for the content of any and all emails electronic messages transmitted to both internal and external recipients.
- Any message received from an unknown sender via the internet should be verified as to the message's authenticity and and the nature of the file so transmitted. should be treated with caution and handled as directed by the system administrator. Downloading any file attached to any electronic based message is prohibited unless the user is certain of that message's authenticity and the nature of the file so transmitted.
- Use of the District's electronic mail system constitutes consent to these regulations.

## 12. Internet Safety

- ⊖ Internet access is limited to only those "acceptable uses," as detailed in these procedures. Internet safety is almost assured if users will not engage in "unacceptable uses," as detailed in these procedures, and will otherwise follow these procedures.
- Staff members shall supervise students while students are using District internet access at school, to ensure that the students abide by the Terms and Conditions for internet access, as contained in these procedures.
- Each District computer with internet access shall be equipped has a filtering device with a filtering device that blocks materials that are entry to visual depictions that are: a) obscene, b) pornographic, or c) harmful or inappropriate for students, as defined by the Children's Internet Protection Act and as determined by the Superintendent or designee. The filter may also block other materials students are prohibited from accessing by District policy or procedure. The Superintendent or designee shall enforce the use of such filtering devices. Students must use the District's filtered network for all online activities on school grounds or using District equipment. Such filter shall also block access to the TikTok website. Measures shall also be undertaken to prevent the downloading of TikTok onto any District device or via the District's electronic network.

- The system administrator, designee, and/or building principals shall monitor student internet access.

### Student Use of Social Media

Students will be held accountable for the content of the communications that they post on social media locations and are responsible for complying with District policy and procedures for content posted using a District computer, network, or software or when posted during school hours when the student is in attendance at school. Student posts on social media locations outside of school hours and school grounds using a personal computer, network, and software shall be private as long as they do not enter into the educational setting and interfere with the orderly operation of the school. Posts to social network sites using a District computer, network, or software may be subject to public records requests. Students may not disrupt the learning atmosphere, educational programs, school activities, or the rights of others.

All of the requirements and prohibitions in District policy and procedure apply to the use of social media on school grounds, through the District network or using District equipment, or as part of a class assignment.
