

Kimberly School District #414
REGULAR BOARD MEETING FY26

THURSDAY, NOVEMBER 20, 2025

11-6 2ND READING REVISE POLICY 9450 FIREARM

The recommended revision to Policy 9450 introduces language that allows the Board greater flexibility in evaluating applicants who possess unique experience, expertise, or training relevant to school safety. This change acknowledges that some individuals may bring exceptional qualifications such as specialized military, law enforcement, or tactical backgrounds that do not fit neatly within the existing criteria but still merit consideration.

The revision does not alter the core safety standards or training expectations but empowers the Board to make informed, case-by-case decisions that reflect the diverse skill sets of potential applicants. This ensures the District can responsibly leverage exceptional talent while maintaining its commitment to safety and accountability.
