## Purpose and Objectives

### 4. **Brief Description of the Project/Initiative** *(Provide a concise overview of what you are planning to do)* \*

The Middle School library's Non-Fiction section needs to be revamped. Most of our Non-Fiction section is outdated. Also, our Non-Fiction materials are lacking in relevance to what is taught here at the Middle School.

Books are expensive and to get quality books that will last cost more than my budget can cover. I have applied for six grants this year in order to help purchase new books and have not had success in being awarded any of them.

### 5. **Goals and Objectives** *(Describe the specific goals and objectives of the project/initiative and how they align with the district's mission and support student learning)* \*

I have worked with the teachers throughout the middle school to know what kind of material and subjects they would like to see available for the students. Each book has been chosen to coordinate with the material and subjects requested.

My goal is to provide students with books and material that is more relevant to what they are learning at the middle school.

## Funding Details

### 6. **Total Amount of Funds Requested** \*

\$6,500

7. **Current/Future Funds** *(What funds are currently available for this project and describe future fund-raising plans)* \*

I have already spent the book library budget this year on other books needed for the library. Because this is an overhaul I don't consider it a need require extra funding in the future. As further subjects and materials are requested / wanted I would try to fit the books needed into my library book budget in future years.

8. **Estimated Cost for Students** *(What is the estimated "out of pocket" cost per student)* \*

None

9. **Budget Breakdown** *(Provide a detailed budget, including specific items, quantities and costs)* \*

The list I have made has 318 books at varying prices. I can email a list if wanted.

## Impacts and Outcomes

10. **Target Audience** *(Specify who will benefit from this project/initiative, such as specific student groups, grade levels, number of students, etc.)* \*

This would affect all grades at the middle school.

11. **Expected Outcomes** *(Detail the expected impact on student learning and academic experience)* \*

This is meant to support and enhance learning and materials for the classes and subjects taught at Kimberly Middle School. By providing relevant material to students will have the ability to gain additional knowledge to what they are learning in school.

12. **Evaluation Plan** *(Describe how you will assess the success of the project/initiative)* \*

I will be encouraging students / classes to come in and utilize the books / material that is bought. Students would be able to use the material to support projects, papers, and other assignments during the school year.

## Additional Information

13. **Previous Funding** *(If applicable, list any previous funding received for similar projects/initiatives and their outcomes)* \*

I have applied for and not been awarded 6 grants this year in hopes of funding this project.

14. **Additional Comments** *(Include any other information that may be relevant to the board's decision)* \*

I want the library to be a source of knowledge, information, and fun for the students here at KMS. I hope that this project helps support that.
